WHEELS OF STEEL

Everyone loves to buy tanks, and now you can triple your fun with our Wheels of Steel offer. **Buy 3 tanks and get the lowest priced one for half price!** What better time to bolster that Imperial Guard line with three shiny, new Leman Russ tanks, or perhaps unleash all those Guardians with a bunch of Falcon Grav Tanks. The choices are endless!

BUY 3 TANKS, GET LOWEST PRICED ONE AT HALF OFF! TROLLS LIKE TANKS

Imagine, with three **Falcons** you could zoom behind enemy lines and dump off 18 Guardians with Shuriken Catapults. The death you could deal would be unmatched!

We don't even want to imagine what three **Immolators** could do!

Three **Predators** means you could get a whopping three Autocannons and six Heavy Bolter shots a turn. Heavily armoured troops wouldn't stand a chance!

Three **Basilisks** means six shots a turn with one of the biggest guns in the game! Don't forget that important preliminary barrage!

BOOM!

Three **Rhinos** is what you need to get those Tactical or Assault squads across open fields in a jiffy!

Make that battleline you've always dreamed of with three **Leman Russ Tanks**.

These are just a few of the tanks that Games Workshop sells. For a complete list check out the 1998 Citadel Annual and the pages of White Dwarf magazine. Of course you don't have to buy three of the same tank. Mix and match at your leisure.

All tanks are shown at 60% because otherwise we couldn't fit them on the page!
